Post- COVID19 : rehumanize finance to reprogram high frequency trading

Close monitoring of the recent stock market fluctuations has not been for the faint of heart. They seem to follow the same pattern of ups and downs as end-of-the-year holidays and festivities; rapid descent when one holiday has passed followed by a steady ascent due to the anticipation over a new one. Today...

Mediterranean: The social economy represents 3.2 million enterprises

The potential for job creation through the promotion of the social economy in the Middle East and North Africa (MENA) region and the Balkans remains largely unexplored. To discuss this, the virtual conference of the Union for the Mediterranean (UfM) on “Social economy and post-pandemic recovery” was…
